

Decode Your Career

Scouts Learn to Code (virtually)

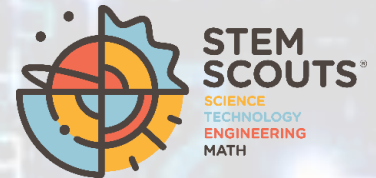

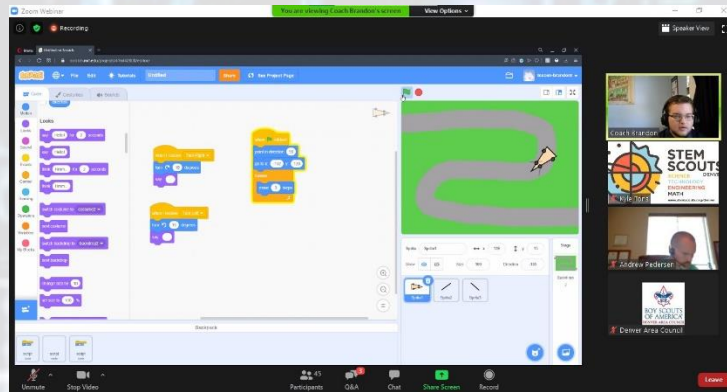

Holiday Edition

BOY SCOUTS OF AMERICA®
DENVER AREA COUNCIL

Learning to Code is one of the most sought-after skills for young people to experience as today's job market and career paths continue to shift towards automation, STEM, Artificial Intelligence, and Technology.

The Denver Area Council is proud to partner with theCoderSchool to give all Scouts the opportunity to learn some basic knowledge in this ever-growing skillset.

When: Saturday, December 5 from 2 – 3:30 p.m. MST (virtual lesson)

Cost: \$5 per Scout

To Register:

- Go to <https://bit.ly/HolidayCoding>.
- How It Works:
 - A secure URL will be sent prior to the lesson to parents/Scouts to login for selected date(s) and time.
 - Before attending, Scouts should make sure to have headphones plugged-in or a quiet area to listen and participate in the activity. And make sure to have a reliable internet connection.
 - theCoderSchool will provide a live instructor, who will lead the program, answer questions after the session and direct Scouts on how to complete the Coding activity.
 - NO previous coding experience required.

Activity:

- Participants will learn to Code by 'hanging' Holiday Decorations on a house or Christmas Tree.

Questions? Call Kyle Tons, Denver Boy Scouts at 720-266-2144 or email at Kyle.Tons@scouting.org.
